SUMMARY

Product Designer with 12+ years of experience designing enterprise software, AI-powered workflows, and design systems. Currently leading AI-first experiences at Microsoft that transform sales, customer success, and delivery workflows through agentic UX, intelligent automation, and Copilot experiences. Known for systems thinking, design leadership through influence, design-system governance, and driving measurable business outcomes across complex enterprise ecosystems.

EXPERIENCE

Microsoft — Senior Product Designer

March 2020 – Present

- ▶ Lead AI-first product design across Sales, Customer Success, and Delivery ecosystems, shaping intelligent workflows used by enterprise teams worldwide.
- ▶ Drive UX strategy for agentic experiences, recommendations, and decision-support systems powered by Copilot and Generative AI.
- ▶ Designed Contextual AI experiences that increased recommendation engagement **200%**, improved pipeline visibility **400%**, and accelerated adoption.
- ▶ Defined trust, explainability, and human-in-the-loop patterns for AI-powered products, improving usability and adoption.
- ▶ Established reusable AI interaction frameworks and governance models adopted across multiple product teams.
- ▶ Core contributor to the **CXP Design System**, driving component standardization, accessibility, and scalable design practices.
- ▶ Influence product direction through collaboration with PM, Engineering, Research, and Data Science teams while mentoring designers through critiques, office hours, and design reviews.

Publicis Sapient — Senior Information Designer

July 2018 – March 2020

- ▶ Led UX strategy and design for enterprise products in financial services and large-scale digital transformation initiatives.
- ▶ Facilitated stakeholder workshops, customer research, service blueprinting, and experience mapping.

Microsoft IDC, Hyderabad — UI/UX Designer (Intern)

May 2017 – July 2017

- ▶ Simplified complex, data-dense workflows in Azure Network Performance Monitor for enterprise network engineers.

Acellere Software Pvt. Ltd., Pune — UI/UX Designer (Team Lead)

April 2016 – June 2016

- ▶ Led client-facing design engagements for Trnear (fitness app) and Gamma (project analytics tool) — owned research, personas, workflow definition, prototyping, and team mentoring.

Persistent Systems (Studioworks 360), Pune — UI/UX & Graphic Designer

May 2015 – March 2016

- ▶ Delivered UI/UX for enterprise products including **Salesforce Financial Cloud**, gaining early experience with CRM workflows, financial-services enterprise UX, and cross-functional product delivery.

Tech Mahindra, Pune — Associate Technical Support

January 2013 – April 2014

SELECTED IMPACT

- **AI Workflow Transformation:** Designed AI-native experiences across enterprise workflows supporting sales, delivery, planning, and customer success functions.
- **Design Systems & Governance:** Led standardization efforts that unified fragmented components and established scalable UX patterns for AI-driven products.
- **Enterprise Scale Design:** Delivered experiences used across global Microsoft commercial organizations, balancing customer needs, business outcomes, accessibility, and technical feasibility.

EDUCATION

M.Des, Design — Indian Institute of Technology, Guwahati (SPI: 9.20) 2018

B.Tech — R.T.M. Nagpur University 2012
